TOXICOLOGY

VOLUME CONTENTS

Volume 61 (1990)

Chronic inhalation effects of ethylene oxide on porphyrin-heme matabolism **(Ethylene oxide alters porphyrin-heme metabolism and decreases hepatic *P*-450)**
by K. Fujishiro, K. Mori and N. Inoue (Kitakyusyu, Japan) ..... 1—11

Absorption, distribution, and elimination of a single oral dose of [^{14}C]tri-*o*-cresyl phosphate in hens **(TOCP is excreted more slowly in hens than in rats and also undergoes metabolic activation)**
by M.B. Abou-Donia, E. Suwita and A.A. Nomeir (Durham, NC) ..... 13—25

Determination of the effect of tridiphane on the pharmacokinetics of [^{14}C]atrazine following oral administration to male Fischer 344 rats **(Tridiphane does not alter absorption, distribution, metabolism or excretion of atrazine)**
by C. Timchalk, M.D. Dryzga, P.W. Langvardt, P.E. Kastl and D.W. Osborne (Midland, MI)..... 27—40

Effect of lindane on mitochondrial side-chain cleavage of cholesterol in mice **(The effect of lindane is inhibitory)**
by S. Sircar and P. Lahiri (Calcutta, India) ..... 41—46

Toxicity of alkyldihydrofurans to metabolically active organs in the mouse **(The methyl compound is pneumotoxic, the pentyl homologue nephrotoxic and ethyldihydrofuran damages lung, liver and kidney)**
by P. Zenk, R. Brinkman, L. Gammal, V. Penka, J. Bresnahan, R. Wiley and G. Traiger (Lawrence, KS) 47—57

Depression of glutathione by cold-restraint in mice **(Application of cold produces a decrease in hepatic glutathione that is independent of hypothermia)**
by H.F. Simmons, R.C. James, R.D. Harbison and S.M. Roberts (Little Rock, AR and Gainesville, FL)... 59—71

Intracellular cadmium mobilization sequelae **(Mobilization of aged cadmium from in vivo deposits does not produce kidney liver or testes changes)**
by S.G. Jones, M.A. Holscher, P.K. Singh and M.M. Jones (Nashville, TN) ..... 73—83

Book review 85

Announcement 87

Erratum 89

Review Paper

A review of the Buehler guinea pig skin sensitization test and its use in a risk assessment process for human skin sensitization
M.K. Robinson, T.L. Nusair, E.R. Fletcher and H.L. Ritz (Cincinnati, OH) ..... 91—107

Research Papers

Effects of subacute toluene exposure on neuronal and glial marker proteins in rat brain **(An increase in specific brain marker proteins is documented)**
J. Huang, K. Kato, E. Shibata, N. Hisanaga, Y. Ono and Y. Takeuchi (Nagoya and Aichi, Japan) ..... 109—117

Effects of divalent metals on the isolated rat glomerulus **(Toxicity is related to the softness of the metal and the mesangial cells appear to be preferred target site)**
D.M. Templeton and N. Chaitu (Toronto, Canada) ..... 119—133

Effects of dietary sodium selenite supplementation on salicylate-induced embryo- and fetotoxicity in the rat **(Dietary selenite protects against salicylate-induced embryotoxicity only when salicylate is given parenterally)**
K. Bergman, E. Cekan, P. Slanina, J. Gabrielsson and K.-E. Hellanäs (Uppsala and Stockholm, Sweden) 135—146

Differential effects of 12-*O*-tetradecanoylphorbol 13-acetate on cytochrome *P*-450-dependent monooxygenase activities in rat hepatoma cells: induction of *P*-450I and suppression of *P*-450II (**The tumor promotor has different inductive effects on the expression of isoenzymes**)
S.F. Roesch and F.J. Wiebel (Neuherberg, F.R.G.) ..... 147—159

Inhibitory effects of benomyl and carbendazim on the [^{3}H]thymidine incorporation in various organs of the mouse — Evidence for a more pronounced action of benomyl (**There is a differential action of parent compound and metabolite on various organs**)
B. Hellman and D. Laryea (Uppsala, Sweden) ..... 161—169

Cocaine hepatotoxicity in cultured liver slices: a species comparison (**Induced rat and mice are the most sensitive, whereas pig and man are the least sensitive to cocaine hepatotoxicity**)
S. Connors, D.R. Rankin, A.J. Gandolfi, C.L. Krumdieck, L.J. Koep and K. Brendel (Tucson AZ and Birmingham AL) ..... 171—183

Pituitary-related weight changes affecting the liver, uterus and adrenal glands of rats treated with hexoestrol and clomiphene in high doses (**The relative weights of these organs are positively influenced by the oestrogen and negatively by the antioestrogen**)
J.E. Hart (Guildford, U.K.) ..... 185—194

Cellular cadmium responses in subpopulations T20 and T27 of human lung carcinoma A549 cells (**Differences in Cd sensitivity between cell lines cannot be explained by differences in Cd accumulation, metallothionein synthesis or basal cellular glutathione levels**)
Y.-J. Kang, S.T. Nuutero, J.A. Clapper, P. Jenkins and M.D. Enger (Ames, IA) ..... 195—203

Short Communication

Modification of the transport of protons and Ca^{2+} ions across mitochondrial coupling membrane by *N*-(phosphonomethyl)glycine (**The bifunctional herbicide seems to short-circuit the proton electrochemical gradient**)
O.O. Olorunsogo (Ibadan, Nigeria) ..... 205—209

Book reviews ..... 211—213

Contents of journals relating to Toxicology ..... 215—219

Protection against cyanide-induced convulsions with α-ketoglutarate
by H.-A. Yamamoto (Ibaraki, Japan) ..... 221—228

Effects of an organic hydroperoxide on the activity of antioxidant enzymes in cultured mammalian cells
by T. Ochi (Kanagawa, Japan) ..... 229—239

Brain phenylalanine and tyrosine levels and hepatic encephalopathy induced by CCl_4 in rats
by H.-A. Yamamoto (Ibaraki, Japan) ..... 241—247

Clinical and reproductive effects of Clophen A50 (PCB) administered during gestation on pregnant guinea pigs and their offspring
by U. Lundkvist (Uppsala, Sweden) ..... 249—257

Induction of rat liver microsomal cytochrome *P*-450 by the pentabromo diphenyl ether Bromkal 70 and half-lives of its components in the adipose tissue
by L. von Meyerinck, B. Hufnagel, A. Schmoldt and H.F. Benthe (Hamburg, F.R.G.) ..... 259—274

The effect of cadmium and other metals on vascular smooth muscle of the dogfish shark, *Squalus acanthias*
by D.H. Evans and K. Weingarten (Salsbury Cove, ME) ..... 275—281

Quantitation of blood plasma DNA as an index of in vivo cytotoxicity
by L. Bret, J. Lulé, C. Alary, S. Appolinaire-Pilipenke, J.P. Pourrat and G.J. Fournié (Toulouse Cedex, France) ..... 283—292

Inhibitory effects of beryllium chloride on rat liver microsomal enzymes
by C.F.P. Teixeira, W.J. Yasaka, L.F. Silva, T.T. Oshiro and S. Oga (Sao Paulo, Brazil) ..... 293—301

Book reviews ..... 303—305

Announcements ..... 307—308

Contents of journals relating to Toxicology ..... 309—311

Subject Index Volume 61 ..... 313—316

Author Index Volume 61 ..... 317—318

Volume Contents Volume 61 ..... 319—320
